Navigating Research at UW

Amy M. Cizik, MPH
Research Scientist
2013 Orthopaedic Workshop
www.washington.edu/research
Required Training

1. **Patients / HIPAA Privacy and Security Training**
   - Informs researchers on their responsibilities related to protecting confidentiality and security of patient information.
   - Who is required to take this training?
     - All UW employees or agents who work or conduct research in a UW HIPAA covered entity and who have access to Protected Health Information (PHI)
   - Online
   - Length
     - 1.5 hours

2. **Protection of Human Research Subjects - IRB or HSD Requirement**
   - Provides training in the protection of human research subjects including ethics, policies, regulations, and procedures.
   - Who is required to take this training?
     - Researchers or research staff identified by the UW Institutional Review Board (IRB) or the Human Subjects Division (HSD)
   - Online through [CITI Web-based Training – UW Affiliation](#)
   - Length
     - Biomedical Course (3-5 hours)
     - Social/Behavioral Course (3-5 hours)
     - Biomedical & Social/Behavioral Course (4-6 hours)
Human Subjects Review

Review and approval by the Institutional Review Board (IRB) or the Human Subjects Division (HSD) is required before starting research involving human subjects.

Determine if your project requires IRB review:

- Is your project regulated research?
- Does your research involve human subjects?
- Is UW IRB the right IRB to review your research?

Apply for Review
Exempt, Expedited or Full Board

Modify or Renew
Modifications & Continuing Review

Report Problems
Protocol Violations & Adverse Events

Close
When & How to Close an Application
GIM 19
Internal Deadlines for Proposals to Outside Agencies

- For Orthopaedics recommend at least 10 days
- If including other departments or professors with joint appointments recommend 14 days
